## YOUR SPACE, YOUR WAY

Our laser cut panels are functional and stunning statement pieces with the longevity to suit outdoor spaces. They can be supplied with a folded edge offering the depth of a thicker panel for that premium, high quality look or as flat panels ready to install between your timber, block or masonry pillars. The perfect finishing touch that enhances and defines your residential or commercial space. Using Decorative Metal by Farra as a base material for decorative screens, feature panels, privacy screens, fences, space dividers and garden screens offers unparalleled durability and an aesthetic that integrates beautifully with your vision for a truly unique space.

## STYLED TO SUIT YOU

We're here to support in achieving your vision – without compromise. Choose from the warmer rusted tones of corten or the polished finish of powder coated aluminium in any Coloursteel colour to match your roof and window joinery, or any Duralloy, Duratec or Protecture colour from the Architectural, Premium Architectural or Industrial Colour Selector Charts. We also offer specialty options like a wood finish coating. Need custom mounting or fixing solutions? We can help with that too. Go completely custom with your panel and design choices or choose from our standard range.

All Farra's decorative screens are made from 3mm aluminium or steel. When comparing options, we recommend 3mm as the minimum thickness for durability and long-term performance.

Have you got a design in mind, or seen something you like? We can incorporate almost any black and white pattern into your own unique design.

## CORTEN aged steel

Corten is a weathering steel that forms a rust-like patina, offering a rustic Central Otago look with low maintenance and durability. It blends beautifully with stone and wood accents.

### Considerations

Corten requires around six months outdoors to weather and may 'bleed' during that time.

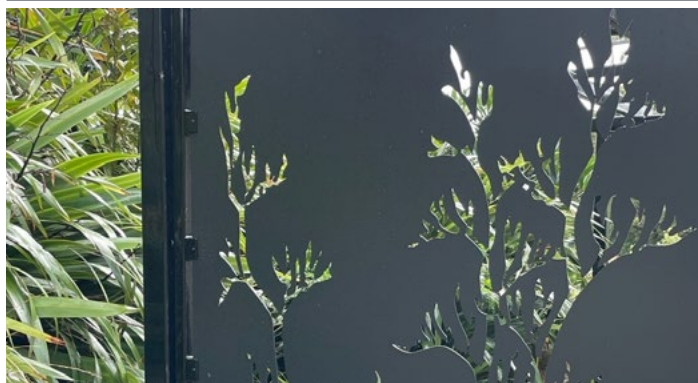

## ALUMINIUM powder coated

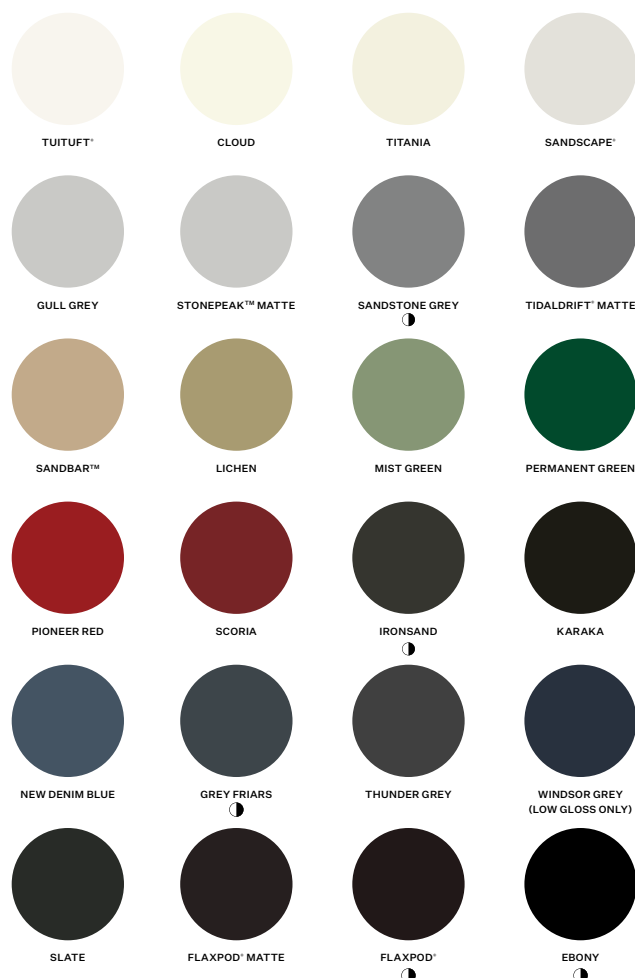

Available in a wide range of colours, our aluminium panels can be powder coated to match your home, joinery, or landscape features. A lightweight solution that's low maintenance and easy to install.

### Considerations

Powder coated aluminum is less rigid than Corten, and requires a folded edge in most situations.

### The Coloursteel range, one of many colour selections available

## FENCE PANEL INSTALLATION

Installing our decorative metal panels couldn't be easier — any builder, landscaper, or capable DIYer can install them using basic hand tools. Fix them directly to your posts, or use our **Installation Kit**, which includes a simple yet sturdy mounting bracket.

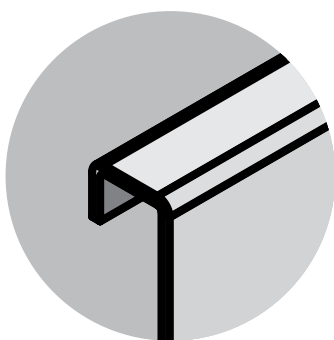

**All panels come with pre-drilled mounting holes as standard.**

**Non-consentable product.**

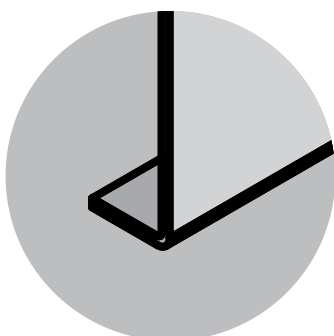

### Folding Options

Farra fence panels are available with a folded profile, offering enhanced strength and making them suitable for use as a handrail with a secure, comfortable grip.

**FOLDED PROFILE**  
TOP EDGE

LOWER EDGE

## INSTALLATION KIT

Includes brackets & fixings to attach to your panels.

### Measure & Order

Determine the positioning of panels and fence posts. Measure and calculate the quantity and sizes of panels needed from our standard range. For custom panel solutions, feel free to contact us directly.

Place your order, including installation kits.

### Install Fence Posts & Setup String Line

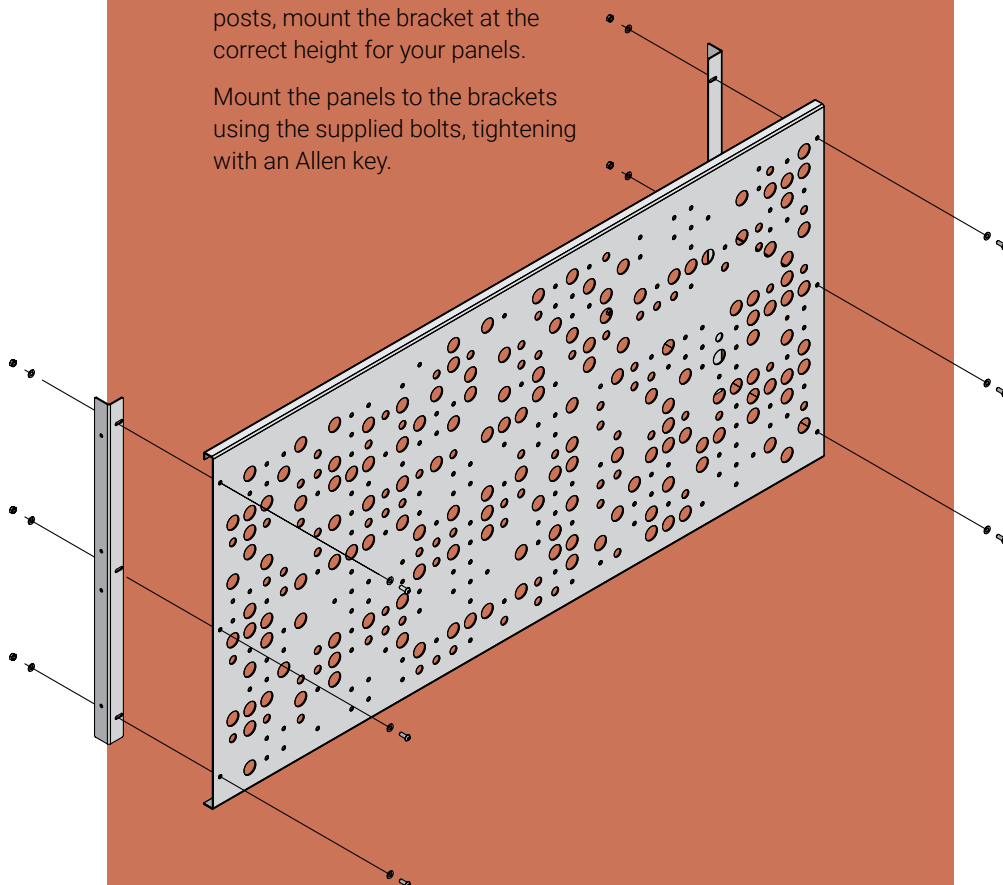

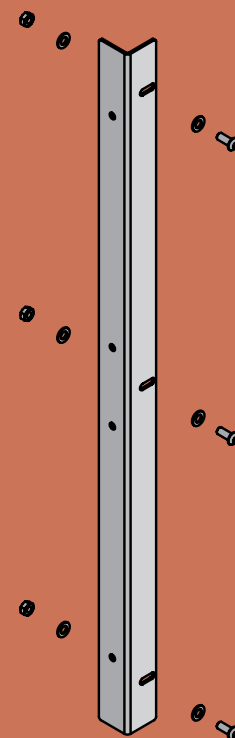

Install your fence posts in the appropriate position for your panels and fixing option. This will be the width of the fence panel + 10mm if using the installation kit.

Set up a level string line along the fence.

### Install the Fence Panels

Using fixings appropriate for your posts, mount the bracket at the correct height for your panels.

Mount the panels to the brackets using the supplied bolts, tightening with an Allen key.

## WANT TO MAKE IT UNIQUELY YOURS?

Farra offers a wide variety of custom metal solutions. Got something special in mind? Let's bring it to life!

We can help with

- Pathway & Driveway Gates
- Pool & Pergola Privacy, Sun & Shade Screening
- Balustrade & Deck Fencing
- Dimensional Signage, House, Letterbox Numbers & Plates
- Bin Screening
- Air Conditioning Covers
- Single Continuous Handrails
- Heavy Gauge Designer Stainless Benchtops
- Custom Size Panels
- Mounting Kits & Blind Fixing Options
- Bespoke Colours & Colour Matching

Contact us to discuss your vision!

## BALUSTRADES & HANDRAILS

We offer a wide range of stainless steel balustrades and handrails, available in both round and square profiles. Each piece is custom designed to meet your architect's specifications, ensuring a perfect fit.
